**Subject:** FW: Near term action on cross-federal communication - PFAS ATSDR Toxicological Profile to be released for final public comment

Jeff,  
Can we remember to chat about this tomorrow.

Thanks,  
Nancy

You aren't late. Lynn Flowers briefed Jeff Morris today. He should be able to provide you the info you need. Feel free to call if you'd like to discuss.

Tom,  
Thanks for the heads up and apologies if I'm coming late to the table with a basic question.  
Has ATSDR been responsive to comments received from EPA during the interagency review of the document?

Thanks,  
Nancy

**Subject:** Near term action on cross-federal communication - PFAS ATSDR Toxicological Profile to be released for final public comment

Tom and Lawrence:

ATSDR (Henry Abadin and Janine Cory) has reached out to me to begin cross-Agency coordination on communications related to the pending release of their draft Toxicological Profile for PFAS for public comment.

The process for the document is as follows:

- 1) a non-public letter peer review (recently completed)
- 2) internal ATSDR clearance (currently ongoing)
- 3) **public release for a final 60 day comment period (anticipated release in November)**
- 4) final posting – TBD/spring 2018

You may recall that the document includes derivation of minimal risk levels (MRLs) for 4 PFAS (PFOA, PFOS, PFHxS, PFNA) that are ATSDR's "equivalent" to EPA's reference doses (RfDs).

You will see in the one-page attachment that ATSDR's MRLs for PFOA and PFOS differ by an order of magnitude from the RfDs that were derived in OW's Health Advisory.

Note also that ATSDR is the first federal agency to derive toxicity values for PFAS other than PFOA and PFOS. All 4 PFAS are frequently found at sites of interest to EPA as you know.

**As the public release of this draft final document is expected to be a communication issue for multiple program and regional offices, I am forwarding the request to you.**

Kathleen and I would greatly appreciate being apprised of next steps as you move forward. Our PFAS toxicity workgroup is ready to help craft Qs & As.

**ATSDR is expecting to hear from EPA as soon as possible.**
